To The People of Hancock County

I take this opportunity to make my formal announcement as a candidate for election to the office of County Superintendent of Education for Hancock County, subject to the Democratic Primary on August 6th 1963.

In doing so I would like to thank the people of this County for the confidence shown in giving me a splendid vote in both the First and Second Primaries in 1959.

To most of you I need no introduction, but for the benefit of those whom I have not yet had the opportunity to meet and for the benefit of those new citizens who may not have been here during our past campaigns, I submit this brief biographical background.

I am now 36 years of age, having been born and reared in Hancock County, a son of Mrs. Frank Ladner and the late Frank Ladner of Kiln. I now own my home in Waveland, where I reside with my family.

My wife is the former Miss Dorothy Stockstill, daughter of Mrs. Ernest Stockstill and the late Mr. Stockstill of Piquette. She holds a Bachelor of Science Degree in elementary Education from the University of Southern Mississippi and is a teacher at Christ Episcopal Day School. We have two children, Kenneth, 11 years of age and Louise, 9 years of age.

My teaching experiences include eight years as a classroom teacher in Hancock County and one year in Louisiana and four years administrative experience as principal of Gulfview School.

Other administrative experiences include my employment as agent special agent, and staff manager with an insurance company. As a special agent my duties carried me through two states where I had the opportunity to observe the operations of many excellent school systems.

I am an overseas Veteran of World War II, having served in the Marine Corps and a member of the American Legion. I am a former Boy Scout Master and am genuinely interested in all phases of youth development. Both my wife and I are members of professional teachers organizations in the near future.

Name Officials For Democratic Primaries

Skeeters In Orbit By NASA

Gainesville, Miss. - Mosquito slapping has been reduced to a minimum at NASA's huge Mississippi Test Operations.

After eight days of one of the most intense mosquito aerial spraying operations ever conducted in the country, workers building the space agency's \$50 million rocket testing center are working now without much harassment from the pesky salt marsh mosquito.

Before the monumental spraying operations, the construction workers had to wear mosquito nets and keep a can of spray handy in order to stay outside.

And, practically 100 per cent of the work on the 141,000 acre reservation is out of doors.

For instance, in some areas the mosquitoes would drive-bomb a man at the rate of 80 attacks per minute.

The average rate of mosquito bites ran from 40 to 60 bites per man per minute.

Over 100,000 acres have been sprayed by the big Air Force C-123 spray plane, now and the mosquito count has been reduced to an amazing count of less than 10 mosquitoes per man per minute. This is considered by experts as a "liveable" condition.

In some areas sprayed, the mosquito control has been 98.4 per cent effective.

The mammoth spraying - which should be completed by the end of this week - was done in cooperation with the U. S. Air Force. The spray planes and the crews were furnished by Langley AFB, Va.

NASA furnished the spray for the project - 44,498 gallons of diesel and 2,600 gallons of malathion. The spray planes operate out of the Piquette airport. They are almost over the reservation when they get airborne.

The sprawling reservation covers land in Hancock and Pearl River Counties, Miss., and St. Tammany Parish, La.

This particular mode of attack on the mosquito, which has proved most effective, was recommended by the U. S. Public Health Service after a recent survey of experts made on the site.

The Air Force entomologist on the project, Capt. C. T. Adams, Sr., has been conducting daily mosquito counts all over the reservation.

William C. Fortune, manager of MTO, said the spraying is "NASA's initial step to concerted joint community effort to eliminate the pesky salt marsh mosquito."

I want to thank the people of this county for giving me an overwhelming majority vote in the first and second Primaries in 1959.

I need no introduction to most people, but to those who have moved into our county in the past few years and I have not had the opportunity to meet during this campaign, I submit a brief biographical sketch of myself.

I completed my grammar and high school education in Hancock County. I graduated from Sellers Voc. High School in 1927. State College in 1929, receiving my B. S. Degree in 1931.

After receiving my degree I was elected principal of Catahoula School for the session 1931-32. I was hired as a Vocational Teacher at Sellers High School which position I held until July 1, 1935.

I resigned this job to run for County Supt., of Education and I was elected in the August Primary in 1935. I held this office until Jan. 1, 1944. I feel that this past experience will qualify me for this office of Supt. of Education.

COUNCIL SEEKS STAND ON SUPPORT OF LOCAL INTER-ALUMNI INSTITUTION OF HIGHER LEARNING FROM CANDIDATES

The Inter-Alumni Council composed of representatives appointed by the institutions of higher learning in Mississippi, are contacting legislative candidates for an expression of how they stand on providing funds for institutions of higher learning in Mississippi, according to H. H. Shattuck, Chairman of the Hancock County Inter-Alumni Council.

Mr. Shattuck was appointed to the council by his alma mater, Mississippi State University. Other representatives include Milton J. Allen, Jr., appointed by Ole Miss; Mrs. Ban M. Russell, Jr., appointed by M. S. C. W.; and Mrs. H. H. Shattuck, appointed by the University of Southern Mississippi.

Mr. Shattuck was elected chairman at a meeting of the council held Monday which was held by F. W. Ogletree, Jr., Secretary, TSM, Alumnus, in charge of the program.

The purpose of the council is to provide adequate legislative support for the institutions of higher learning in Mississippi. The council pointed out that Mississippi provides the lowest per capita support per student in the United States. While Mississippi has only \$115 in operational cost per student, our sister states of Louisiana provides \$1000 per student and Arkansas \$1015 per student. The goal for the council is to place Mississippi at least with Arkansas by the year 1970.

The council further stated that the facts about our support of higher learning in Mississippi is so pitiful that it is almost unbelievable.

The President, in his proclamation, has urged all farm families and all persons and organizations allied with agriculture, to engage in a purposeful, unified effort to further reduce the number of farm home and highway accidents.

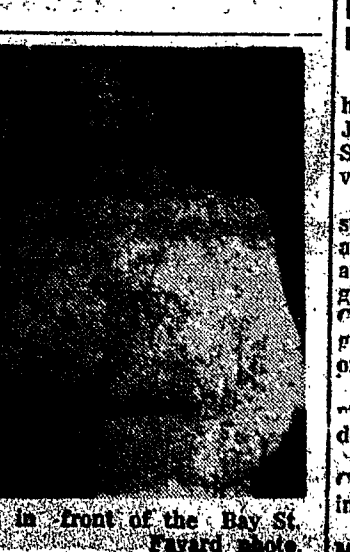

The Hancock County Superintendent of Education's office announced this week the proposed budget for 1963-64 for the Hancock County School District which comprises North Central, Logtown, and Gulfview, is \$616,197.66.

Last year's budget amounted to \$538,669.66.

The increase is due, the superintendent said, to the purchase of a new bus, \$215,000 for new Logtown school; \$49,000 for four additional classrooms at North Central and a raise in teachers' salaries.

Miss Ormond will end her reign Saturday evening by presenting a bouquet to her successor in ceremonies at the Buena Vista Hotel in Biloxi. Governor Ross Barnett is scheduled to crown the winner.

The contest is sponsored annually by the Mississippi Agricultural and Industrial Board, which administers the state's tourist and industrial programs.

Starting Wednesday noon, July 24, three out-of-state judges will survey a field of 49 contestants who won "Miss Hospitality" contests in their respective local communities in June.

They will be looking for a young lady between 18 and 25 inclusive, who should exemplify the Southern girl at her best, who possesses beauty, personality and back bone, and who can meet the public and be at ease.

This young lady will represent Mississippi at travel shows and other events in cities in all parts of the country as part of the A&I Board's program to attract tourists to Mississippi.

The "only part of the contest open to the public is the coronation ceremony Saturday at 8:45 p. m. at the Buena Vista Hotel in Biloxi, and seating is limited for this event. The ceremony will be broadcast over a statewide radio network from 9 p. m. to 10 p. m. After each contestant has been presented individually to the audience, the judges will announce their choice for winner, first alternate and second alternate, and the winner will be crowned by Governor Ross Barnett.

Judges this year include Miss Jane Gamble, New York, coordinator for the annual New York "Miss America" show; Kermit Holt, Chicago, travel editor of the Chicago Tribune; Bill T. Hamilton, Atlanta, manager of the tourist division of the Georgia Department of Commerce.

The "Miss Hospitality" contest was first held in 1949 and was won that year by Miss Katherine Wright of Pascagoula (now Mrs. Richard O'Neil, Jackson), who later that same year was runner-up in the "Miss America" contest in Atlantic City, N. J.

The winner in 1950 was Miss Betty Denton of Tupelo (now Mrs. David Langston, Raleigh), who was awarded a scholarship through her role and was crowned by the first alternate, Miss Helen E. Livingston of Yule, Miss. (now Mrs. Frederick E. Clark, Yule City).

Marshall Space Flight Center of the National Aeronautics and Space Administration for use in ground testing rockets and rocket engines in the Apollo lunar landing program.

Bids will be opened on August 9 for the construction of a double-lane bridge over the main canal connecting the East Pearl River to the network of canals within the test area. The bridge, which crosses the canal just east of the lock to be constructed in the southwest corner of the area, will carry four lanes of vehicular traffic to provide access from the south entrance.

Each of the two structural steel leaves will be 57 feet 7 inches long by 62 feet 6 inches wide. The concrete piers will be about 64 by 86 feet and will contain machinery for raising and lowering the leaves. A control house will be erected on one pier.

Bids will be opened on August 15 for constructing a railroad track from the end of the recently completed Southern Railway spur to the service area, a railroad classification yard at the terminal having six spur tracks, and a flood-lighting system, consisting of 38 flood lights mounted on 60-foot poles, to illuminate the yard. The railroad trackage will amount to about 2.2 miles.

Bids will be opened at 11:00 a. m., C. S. T., on the specified dates at the Corps of Engineers district office, 2301 Airport Blvd., Mobile, Alabama.

Bidding for both contracts is restricted to small business concerns to assure such firms a fair share of Government procurement.

Army Engineers are soliciting informal proposals for furnishing a mobile food and drink dispensing service to construction workers and other personnel employed at the huge NASA Mississippi Test Facility, which is under construction on a recently acquired 13,550-acre Government reservation in Hancock County, Mississippi.

The successful offer will be granted a five-year license for providing food, drinks, and related services to various work sites at the sprawling facility from one or more vehicles. Compensation to the Government will be a fixed sum per year plus a percentage of the gross receipts. The license will be awarded to the highest responsible offeror.

Copies of the invitation for proposals and proposal forms may be obtained from the Real Estate Project Office, 159 Main Street, Bay St. Louis, Mississippi. Sealed proposals will be opened at 2:00 p. m., C. S. T., on August 13 at the Corps of Engineers district office, Room 137, Palmer and Baker Buildings, 460 Government Street, Mobile, Alabama.

FARMERS URGED TO REPORT COMPLETED ACP PRACTICES

Farmers who have completed conservation projects approved earlier this year under the 1963 Agricultural Conservation Program were reminded today to file their report of performance for cost-share assistance.

John W. Haynes, Office Manager of the Hancock Agricultural Stabilization and Conservation County Office, points out that the earlier such reports on completed practices are filed, the sooner the ACP payment can be made. This will permit the farmer to meet the expenses incurred in carrying out the practice, and if he has other projects approved for completion this fall, the cash payments can help to get the additional conservation under way. With spring conservation projects completed and the cost shares received, it will be easier to concentrate on other work that needs to be done.

The Office Manager said that if a farmer has received approval for a practice which he later finds he is unable to carry out, he should report this to his county office. This may permit the committee to approve another practice for him or for some other

farmer in the county. ACP, Mr. Haynes explained, has both now and in the past been authorized by Congress in cost-share assistance recognition of the fact that the der the program natural resources on individual of the whole nation farms are vital not only to the helping insure the farmers and ranchers who operate quite protection the land but also to the health throughout the country.

The Sports Trail

BY MICHAEL LANG

and then when I'm out at the gym I notice some of the boys who haven't noticed before. The last two straight wins and came up with a very good example of this was at the gym Sunday when he hit against Kila along with other hits in the games that day which is real

good in my book, and more important, he is more than a good sport three times over.

CYO on the go. Yes the CYO is back on the diamond showing off some of their fancy work again. Last week the CYO beat Roland's, now who is Roland's? Roland's is the team that has in these last few weeks made a brilliant showing of themselves beating Reimke's, Trapani's and almost touching off Southern. Really. Now with Roland's defeat, last week the CYO is coming along great and their manager, Manuel Mazurki says they are out for a killin, which won't be surprising to many.

Manuel says he has a hot quartet which combines speed and hitting ability. The boys are Doni Saucier, Dusty Rhodes, Curtis Matherine, and Michael Lee. The

first three hit home runs last week in the game with Roland's, and covered those bases like mad. Michael Lee just had to settle for a few hits, he was also responsible for making the run which tied the game and later won. The boys aren't counting themselves out yet and I wouldn't either.

CYO will sponsor a tournament at Stanislaus stadium Sunday, July 28, to go on out if you can, it will be a good time to watch the boys in action. There will be some teams from along the coast playing too.

A new sport going like wild fire all over the country is skin diving. A few years ago there was only a few thousand, now there are almost a million. It is an exciting sport which provides an usual kind of kick for those who participate in it. Though it can be dangerous, it is quite safe if one knows what

he is doing, and if he takes good care of his equipment. Well any way, here is the point I'll try to get across. If any skin diver is around here didn't know, air hoses, the most vital of the equipment, you get the right air. Around the country air is being sold from compressors which weren't made for oxygen but for jack hammer or something else and doctors in laboratories in New Jersey have confirmed that this air will kill a human in about one-half hour, and these deaths would be classified as drownings. Pretty shocking but it is being done, so if you are a skin diver, be careful of the air you buy. It could save your life!

I was sorry to hear Brother Ralph was transferred to Baton Rouge the other day. Brother

Ralph is a fine sport and in my opinion, the best basketball coach along the coast, he really knows his stuff. Stanislaus will lose a great asset and I'm sure they were sorry to see him leave, but you can be sure that wherever he goes, he'll give the hardest team a run for their money. We want to wish him luck and to take it easy on us when he brings his team down to play.

It's almost time for sting ray season again, so be extra careful when out in the water, but in any case when you see one don't play around with it, because you could get hurt seriously.

CONSTABLE BEAT 5

HONEST, EFFICIENT, QUALIFIED. A VOTE FOR JOHNNY KACHLER IS A VOTE FOR INDEPENDENT, FEARLESS LAW ENFORCEMENT. YOUR VOTE AND SUPPORT APPRECIATED.

PAID FOR BY FRIENDS OF: JOHN J. (JOHNNY) KACHLER

TO MY FRIENDS, THE VOTERS OF HANCOCK COUNTY:

For the past twelve years, I have endeavored to serve you, one and all, to the best of my ability as Chief Clerk in the Office of Chancery Clerk of Hancock County.

Now I hope to continue to serve you for the next four years as your Chancery Clerk. If I am elected, with your help and vote, I will continue to assist one and all in facilitating your business with the Clerk's office. I promise that every one will be treated with courtesy and helpful understanding in the Clerk's office, by myself and staff.

The Office of Chancery Clerk is one of the most important ones in the County to all of our citizens. The vital records of all real property are kept there. All reports of Board of Supervisors' proceedings, and other official instruments, are entrusted to the Clerk's care for safekeeping. It is of the utmost interest to all of us that these records are given proper care and correct filing. This can best be done by one who understand the working arrangements of the office. This I know well, after twelve years; and the records will be given excellent care if you elect me.

If you feel I have earned it, and see fit to give it to me, I will be your next Chancery Clerk, and you will never regret the gift of your vote to me.

Sincerely,
MARIE QUINTINI

Charles SULLIVAN Stands FOR

1. A positive, definite program of action in the national election of 1964, as I consider the relationship to exist between the federal and state government the most important issue in this campaign.
2. A program to assure the financial stability of this state with a positive and definite proposal.
3. A direct, affirmative program for industrial development which particularly includes the initiation of a technical, vocational training system in conjunction with the state's junior college system together with other specific proposals.
4. I have, of course, openly forthrightly and directly discussed and advocated a plank in my platform dealing with the liquor hypocrisy that exists in this state with a specific, direct program for the only practical, feasible solution.
5. I have advocated and have released publicly a definite, precise plan for the administration of the state penitentiary at Parchman, some of which as a matter of fact, is now the law, but which has not been observed in the past.
6. A positive, affirmative and realistic program for quality education including teachers' salaries, and primarily one which can be carried out within the budgetary limitations that would be necessary in the first biennium of the next administration.

You can't see any farther ahead from the second step than you could from the first. But you know you are closer to the top.

And that very aptly describes one aspect of man's quest for spiritual understanding.

ONE SUNDAY IN CHURCH DOESN'T MAKE US CHRISTIANS. And sometimes a month of Sundays finds us still struggling with doubts and wrestling with temptations. Prayers don't always seem to have been answered. And parts of the Bible may constantly baffle us.

But the truth of the matter is that every spiritual step we take is exactly that — a step. It may leave our perspective unchanged for the moment. But it is bringing us closer to that higher level of life from which man's vision enlarges.

Until we reach life's spiritual crest, the most important step is always the NEXT. Join the millions who'll climb a little closer to the summit Sunday.

Nice Things Happen to Systematic Savers

Ever notice how it is with some families? They always seem to have the money to go off on the most exciting vacation trips, buy and furnish the nicest homes, give their children the best educations. Often the answer is not to be found in the size of their income, but in what they DO with it! By systematically saving part of it, they manage to have "what it takes" to enjoy the best things of life. If they save here (as many do) where their money earns interest.

Social Security

will you need security payments? Most people do. If you need up your first application for retirement can be filed as much as 12 months before you actually retire. If you write or visit our office in Gulfport, we will tell you what you will need to do. They will also tell you what people who apply for security payments should do with their social security account number cards, and evidence of their age, for the previous year. Evidence is the withholding of (Form W-2) for employees, or a copy of their Federal

Income Tax Return if self-employed. Of course, no person should delay applying for benefits just because he does not have all of these papers available. The people at the social security office can often suggest other acceptable proofs and assist in securing them. The Gulfport social security office is located at 1022 32nd Ave.

SOIL LOSSES EXCESSIVELY SOIL STUDIED

SHARKEY COLLAPSE Even after the nitrogen is applied, the loss of soil is often observed in Sharkey clay and related soil types in the Delta. Because these symptoms occur after extensive rainy periods, it seemed apparent that the nitrogen loss was associated with rainfall.

Field experiments were set up to study the problem. Each year for four years, W. L. Spurgeon and H. Grissom conducted the test for a 20-day period at the Delta Branch Experiment Station. Over a 4-year average water-logged Sharkey clay lost 92 pounds of nitrogen per acre in the 20-day period, compared to 45 pounds

for the arid soil. When nitrogen was placed 4 inches below the surface, the loss was reduced.

Poorly drained clay soils in the Delta may be subjected to water-logged conditions for periods of 5-20 days or more, Mr. Spurgeon said.

**A Vote For
Sylvan J. Ladner Jr.
Is A Vote For
Good Government**

The Sheriff of your county, whether small or large, is one of the first lines of defense against crime in a community. They are recognized by the people in their community by the uniforms, insignia or badges of authority that they wear. It is important that these men are of the highest caliber, because they must command the respect of their fellow citizens.

These law enforcement officers represent to many people, our kind of government. It becomes necessary for the Sheriff, through his conduct and behavior, which reflects the behavior of his departments and community, to conduct himself in such a manner that it will be a credit on our county and on the individual office. The people whom he serves must have confidence in him, must respect him, and voluntarily want to cooperate with him. This is a big job and upon it rests the assurance of the maintenance of law and order.

I think you will agree that my education, training, and my on the job experience as a former City Commissioner and Sheriff and Tax Collector and my ambition to serve as your next Sheriff and Tax Collector will help qualify me to make you a better and more experienced official.

My record of service as a public official will show for my efficiency and integrity. I have and will work always for those high standards of law enforcement that will help make a better and more prosperous Hancock County.

To every citizen to whom the office of Sheriff and Tax Collector belongs, I will offer prompt, courteous and experienced service. During my term of office in the past I have tried to serve the public in a manner in which I myself would like to be served. The Sheriff's office belongs to you, the people and you should be careful as to whom you elect to handle this important job.

I seek the vote and support of those who want a Sheriff and Tax Collector who will be fair and courteous to one and all.

Through his Real Estate affiliations, he is well versed in problems of housing, commercial development and subdivision construction.

He also went to Florida (the Cape Canaveral Area) for further study of community development and growth under the Space Exploration Program, besides other shorter trips so that he will be better versed in Ways and Means to cope with the thousands of people and new industrial developments that will come to Hancock County in the near future if properly promoted and the local problems advertised.

As Supervisor of Beat 5, you should consider the man who has been familiarizing himself for the problems that will be confronting the man who can and will coordinate the workings of the Beat 5. LAKESHORE AND CLERMONT HARBOR NEWS
By Aline (Pee Wee) Courtes
HO-7-3806

The Clermont Lakeshore Youth Center held one of its scheduled meetings this past Saturday. The purpose of the meeting was to try and secure chaperons for the teenage dances.

It was very disappointing to everyone concerned as only five parents (couples) of teenage members of the organization attended. And these are the same parents who have worked all year round in concern of the Youth Center.

There was quite a crowd who attended, but the remainder were candidates who are interested in the youth of today. (and we wish to extend thanks to them for their interest in our teenagers.)

We are still in great need for chaperons as the Youth Center has been closed for the past four weeks because of the lack of chaperons.

Any parent or parents interested in the youth of their community and surrounding community who would like to donate three hours of their time may contact Mrs. Gloria Peterson at 467-6388.

Belated birthday wishes are extended this week to Fritz Garcia who celebrated his 8th birthday July 8th.

His parents Mr. and Mrs. Lewis (Fritz) Garcia hosted a party in honor of their son's birthday.

Guests included Randy Krankey, Lynn and Lisa Klein, Paul Rannik, Melanie and Mickey Lenfant and Alvin Ladner Jr., also Philip Garcia and Wanda and Debbie Garcia.

Also attending were Mrs. Edgar Williams, Mrs. George Rannik, Mr. and Mrs. Albert Strong, Mr. and Mrs. Harold Krankey, and Mrs. Alberta Treutel.

Election of officers for the coming year of the Clermont Harbor Civic Ass'n., was held this past Saturday at the Clermont-Lakeshore Youth Center.

Mr. Ed. P. Orte was elected president; Mr. H. E. Ming, vice president; Mrs. Russell Elliott, secretary; and Mr. Joseph Goodloe, treasurer.

Mr. and Mrs. Fritz Garcia moved to New Orleans this Wednesday to visit Mrs. Garcia's mother, Mrs. Edgar Williams, who has been hospitalized for quite some time in Mercy Hospital. Mrs. Garcia reported her to be doing some better.

Happy birthday wishes are extended this week to Miss Peggy Garcia who celebrated July 25, and to Mrs. Eugenie Boudin, who will celebrate July 29.

Visiting Mrs. George Montgomery of Lakeshore are her nephew and niece Mr. and Mrs. Philip Smith and son Jerry of Alexandria, Kentucky.

My aunt, Miss Camille Ladner of Springfield, New Jersey is spending a month vacation visiting with us in Lakeshore.

My mother Mrs. Gordon Courge and I along with Maria Peterson and Greg Kothmann motored to New Orleans this past Friday. We spent the day with Mr. and Mrs. C. M. Jackson and family and that night we enjoyed a good time at Ponchartraine Beach.

My brother Gordon (Speedy) returned with us after having spent a week in New Orleans.

Mrs. Susie Ulrich was feted Sunday July 21 with a surprise baby shower at the home of her parents Mr. and Mrs. Gordon Garcia of Ansley. The honoree's receiving chair was decorated with pink, blue and white crepe paper with a large umbrella of the same decoration over her chair.

The shower was given by Mrs. Emmett Lusich and Mrs. Leroy Garcia. Approximately twenty-five guests were present.

Approximately 800 people gathered at Gulfview School Sunday, July 21 for one of the many rallies being held during the political campaign.

The highlight of the day was the speeches of the candidates.
